Address.....

Town .....

Legal Description.....

Valuation Assessment No. .... Signature .....

Contact Telephone ..... Fax.....

**Requirement**

Stormwater Connections require a connection fee of \$450 per connection. An inspection fee only is \$200.

The connection fee is costed for a standard residential connection. It includes a "y" junction and piping to the boundary. If a connection is not standard or the distance from the main to the boundary exceeds 2.0 metres, Council reserves the right to recover actual costs.

This application:	Stormwater Connection	\$.....
	Inspection Fee	\$.....
	Receipt Number	.....
	Date	.....

**Notes**

- 1 Applicants will pay the cost of exposing the nearest available drain and the cost of laying from that drain to their property. In the event that the nearest drain is in or across the road or footpath, Council will do the work and charge the applicant, or (at Council's discretion), the work may be done by the applicant's drainlayer under Council's supervision.
- 2 The applicant's connection fee will pay for Council's contractor to supply the materials for the connection and cut into the public drain.
- 3 No stormwater connection shall be made into a sanitary sewer (and vice versa).
- 4 Stormwater connections to a stormwater sewer / open road drain may be made by a registered drainlayer provided that:
  - (a) the inspection fee is paid
  - (b) the work is done under Engineer's supervision

Any footpath, road, or berm shall be reinstated to approval or repaired by Council at the applicants expense as applicable.
- 5 Except as indicated in Note 4, no connection shall be made to any sewer by a private individual.

- 6 The Engineer requires at least 24 hours notice for any inspection or work permitted in No 4. He must also be notified before any work in a street may commence.
  
- 7 Any connection greater than 100 mm diameter must be connected to Council sewers in a manhole.

Where connection provided by developer, no fee.
