

Memorandum 4

Re: Atlas Quarries Limited's Request

To: Meagan Walters

From: Mark Farnsworth Panel Chair

Cc: Alan Watson Panel Deputy Chair

Date: 02 June 2026

Alan Watson and I have discussed Atlas Quarries Ltd's (Atlas) request asking if they could cover off all of their submissions at one hearing rather than having to attend multiple hearings – this would save Atlas both time and the cost of attending multiple hearings.

In this present environment we acknowledge that both time and cost are important considerations however in this instance we have to be guided by the advice we have already tendered to another submitter who made a similar request. We offered the following solution.

If required Atlas can prepare composite opening legal submissions that are sent to all panel members.

- Atlas only need to attend in person the hearing day where there are substantive matters that they have submitted on.
- Where they have made submissions on other matters Atlas can table written evidence / statements and make themselves available to answer questions of clarification by way of audio-visual means at a set time during on the day of the hearing.

A handwritten signature in black ink, appearing to read 'Mark Farnsworth', with a stylized flourish at the end.
