as attached and inline.

I oppose the current restrictions on subdividing non-viable farmland in the Mangawhai area. Large-scale subdivisions have already been approved, and the resulting oversupply is a consequence of those decisions.

These developments should not be shielded from market forces.

It is unfair that small landowners face strict limitations on subdivision while large developers struggle to sell their lots.

The market should be open and equitable for all landholders.

Concerns about infrastructure — such as roads and public facilities — will naturally be addressed as Mangawhai continues to grow.

Population-driven demand will support the development of essential services over time.

PS the submission process is badly convoluted. Are the online help file / make a submission files supposed to show the address where we can login ?
