Form 6

Further submission in support of, or in opposition to, submission/s on the notified Proposed Kaipara District Plan

Clause 8 of Schedule 1, Resource Management Act 1991

This is a **further** submission that is either **in support of** or **in opposition to** a submission already received by Kaipara District Council on all topics except for the topic of Light in the Proposed Kaipara District Plan.

No new submission points can be made.

The topic of Light was notified for further submissions on 21 October 2025 prior to all other topics due to the hearing for Light being confirmed for December 2025.

- This Form 6 is available for further submissions on all Proposed Kaipara District Plan topics **except for Light**. The topic of Light was notified for Further Submissions between 21 October 2025 and 4 November 2025 as a hearing for this topic is being held in December 2025.
- **PRIVACY ACT NOTE:** Please note that all information provided in your further submission is considered public under the Local Government Official Information and Meetings Act 1987 and may be published to progress the process for the Proposed Kaipara District Plan and may be made publicly available.

- I am (select one of the following options): *

2G

- a person representing a relevant aspect of the public interest
 a person who has an interest in the proposal that is greater than the interest the general public has
 the local authority for the relevant area

- You must specify the grounds for saying that you come within this category (see 2H examples below if you need assistance): *

I have been a long time supporter of G.E. Free Northland . I am concerned for the environment and the future of New Zealand . We need to have Natural soil and plants and other life forms. At

the very least we need to be able to grow the food we eat and drink the water. These are essentials for life and are already under serious stress .

You cannot shelter under a dollar. You cannot eat a dollar. You cannot drink a dollar . Profits do not feed us and maintain life.

- *For example: Any person representing a relevant aspect of the public interest would likely include public interest environmental groups*

OR

Any person that has an interest in the proposed policy statement or plan greater than the interest that the general public has is likely to include owners of land and users of resources directly affected by plan provisions. It is also likely to include iwi and hapu where their interests are directly affected

The threats of the Gene Technology Bill on the ENVIRONMENT. GE plants require high dosages of weed killers which adversely affect the soil, destroying the organisms it contains . All vectors of the plant are affected by the new Genes and the weed killer and the depleted soil. Humans are included in this . 'Roundup ' has been found in the blood supply to unborn children (Source Pathologist at Whangarei Hospital.)Affected soil cannot retain its natural abilities to support plant growth.

We need soil that grows the plants our animals eat and produce our trade products. We also need food to survive. These weed killers also enter the water systems we, and our plants and animals and micro-organisms, depend on . Water is essential for all life forms. Once we have opted for GE life forms , there is no going back .

That include trade with countries who at present accept our produce.

It means losing our growing number of organic farms where

natural agricultural methods are showing good results in crops and soil management.

We cannot afford to lose our natural ecology environment .

Once we cannot recover what we have destroyed. Good natural soil is becoming a rarity world wide. We can benefit from keeping ours.
