Activity Management Plans introduction

The following section describes the different groups of activities that Council undertake. For the Long Term Plan 2024–2027, Council's work is classed into nine groups. The information provided about each activity within the groups includes:

- The group's purpose, associated legislation, risks and issues
- What that activity does
- How it relates to the community outcomes
- How the activity considers climate resilience
- What we will deliver over the next three years
- Performance measures and targets for 2024–2027
- Any changes to the levels of service (what Council will provide and to what extent)
- Any significant negative effects, and
- The money we have budgeted for each activity and the capital projects associated with each activity.

Activities and how they contribute to the well-beings

Council want to ensure the community well-beings are considered in all the work we do. Under the purpose of the Local Government Act, we need to promote the social, economic, environmental and cultural wellbeing of communities in the present and for the future. These are a way of measuring the quality of life and things that people care about. By ensuring these are in the forefront of our minds when planning the needs of Kaipara District, we can ensure the quality of life for our communities is enhanced. The activity profiles look at ways these well-beings can be further developed, through infrastructure projects, financials considerations and providing quality services.
