The proposal isn't very clear on how clean water will be provided and how dirty water will be processed. How these will be done and how they will be funded seems to be rather vague. I don't think anyone wants to go through the same uncertainty as we had with Mangawhai Central, so could the developer give a lot more detail on these aspects so that ratepayers know what their burden will be and how much budget the developer will put in to cover them

**Example -  
supports  
the growth  
of  
Mangawhai**
