This is a submission on a private plan change.

Please complete this form if you wish to make a submission to the Mangawhai Hills private plan change.

Private plan change number: PPC84 | Private plan change name: Mangawhai Hills Limited

Submissions must be received by 5pm on Tuesday 26 September 2023.

Overview of the Private Plan Change Proposal

The purpose of the private plan change is to rezone an area in Mangawhai to a Residential Zone. The key features of the plan change are:

- Rezone 218.3 hectares of land between Tara Road, Cove Road, Moir Road, and Old Waipu Road in Mangawhai.
- The creation of a Mangawhai Development Area with core provisions, that to protect ecological features, promote high-quality urban design, provide open space and connectivity; and
- Any necessary consequential amendments to the Kaipara District Plan Maps.

You can read the Private Plan Change application documentation on the [Kaipara District Council website](#).

- **PRIVACY ACT NOTE:** Please note that all information provided in your submission is considered public under the Local Government Official Information and Meetings Act 1987 and may be published to progress the process for the private plan change and may be made publicly available.

You can make a submission on more than one provision using this form.

Example - supports the growth of Mangawhai

The environmental impact must be minimised , by retaining all existing vegetation especially near the wetlands that feed the Tara Stream.

The "sky line "view from all directions - ie Tara Road and Mangawhai should be protected . No structures to be built on the Sky line. 45% of the land should be green spaces with public access , by bike or walking.

All streets should include shared paths for cyclists and pedestrians. The Night Sky should be preserved by limiting light pollution.

Submission Point 32.6

The waste water produced by this development must be treated on site and not be directed to the Mangawhai Waste Water system - which is at capacity.

The development must have a water supply system which will cope with draughts - without drawing from ground water !

Example - supports the growth of Mangawhai
