Submission Point 54.1

Over the last six weeks I have had four meetings with Steve Brebner regarding my concerns with the Mangawhai Hills development and Proposed Plan Change PPC 84. My concern was if this development is to go ahead it would be done to a standard that would enhance not only the proposed development but also the surrounding properties. As we all know over the last twenty five years the Council of Kaipara has been found wanting with sewage schemes ,no foot paths in new subdivisions, no gutters,open storm water drains ,pot holes, old relocated houses etc. Steve has assured me this proposal will be done to a high standard including roading,public access ,planting, bush walks,traffic connect ability, completed in stages,pockets of housing spread over the property, solar power, native planting ,covenants ,etc. I have discussed with Steve my concern over water run off and the problem Tara Road residents have with the stream that runs past our properties during heavy rain falls. He has already addressed the bridge blockage issue and has a withholding pond planned to ease subdivision water run off.For these reasons I would rather work with Mangawhai Hills to complete their project to benefit existing residents than have a substandard development next to me. Therefore I support their application for the Proposed Plan Change PPC84

Example - supports the growth of Mangawhai
