 - ☒ I oppose this original submission point of the submitter named above

- Please summarise the nature of your further submission below: * **3D**

Clearly explain whether you support or oppose the proposal and provide your reasons.

You can write up to 4000 characters in this section.

If you prefer to upload a separate document instead, type **"refer to attachment"** in the box below then continue to Question 3E to upload your file.

The reasons for my support/opposition are:

The submission notes that public amenities will be enhanced in conjunction with the coastal edge via a delineated public walking and cycling track. While the provision of public amenities is acknowledged as important, as per Riverside's submission, the public walkway along the coastal fringe is not considered practical or cost-effective particularly given the likely low level of usage. Public amenities with greater levels of benefit would be better located elsewhere within the Plan Change area.
