Appendix 1 – Food Business Verification Terms and Conditions

Kaipara District Council (“Council”) is a registration authority under the Food Act 2014 (“the Act”) for food control plans (“the Plans”) and food businesses subject to a national programme (“the Programme”).

The Ministry for Primary Industries (“the Ministry”) has appointed Council a verifier under the Act to verify food businesses subject to the Plans and the Programme.

Under the Act, any appropriate recognised agency or person can verify a business operating under the Programme.

The following terms and conditions apply to food businesses which have agreed with Council to act as their verifier.

Verification

- Council will conduct its verification function under the Act and the Food Regulations 2015 (“the Regulations”)
- Council will obtain evidence which, in its discretion, allows it to consider whether or not a food business complies with the Programme and with the relevant provisions of the Act and Regulations
- The nature of Council’s procedures and processes may vary according to the type of business, risk assessment and previous compliance history. Council will focus on what is most important for food safety with each type of business
- At the end of the verification, Council will provide the food business with an outcome report for each verification topic covered. Possible outcomes are:
 - **Performing:** fully meeting applicable requirements of the Act
 - **Conforming:** adequately meeting applicable requirements of the Act. Observations will be made on the potential for a current activity to deteriorate into non-conformance if allowed to persist
 - **Non-conforming:** applicable requirements of the Act are not fully met but the deficiency(s) are not likely to affect the safety or suitability of food, and
 - **Non-complying:** applicable requirements of the Act are not met and findings can be referenced to an offence provision in part 4 of the Act.
- If any issues are discovered, Council will agree with the food business on a plan to address those issues, including setting reasonable timeframes, and the timing of the next verification visit; and
- Council will provide the Ministry with information from the verification visit.

Obligations of the food business

The food business agrees to provide Council with the following:

- Reasonable access to the food business
- Reasonable access to information and documents relating to the food business
- Reasonable access to documents that are required to be kept under the risk-based measure; and
- Reasonable access to food and to food-related accessories that are used in connection with the risk-based measure or that ought to be used in connection with the risk-based measure.

The food business warrants that all information and documents provided are complete, true, accurate and up-to-date and that:

- All food preparation tasks are being properly carried out by appropriate staff who have been suitably trained and instructed
- Any restrictions or conditions place on the registration are being complied with; and
- They will notify Council of any further information, including any post verification events, which may have a bearing on the verification.

Fees and Charges

Council's fees and charges document can be found on Kaipara District Council's website <https://www.kaipara.govt.nz/> under the 'Services' tab. Verification fees are subject to periodic review in accordance with the Act. Fees are payable on invoice, completion of verification and registration renewal.

Term and Termination

The food business may terminate the agreement with Council at any time by giving one (1) month's written notice.

Council may terminate the agreement and stop providing verification services immediately if the food business is in breach of these terms and conditions or if their registration is revoked, suspended, surrendered or substituted.

Complaints, Conflicts of Interest, Impartiality

Policy: Conflict of Interest

The Territorial Authority (TA) will endeavour to identify and manage perceived conflicts of interest.

All team members have the responsibility for identifying actual and perceived conflict of interest issues and notify the Manager, Bylaws Compliance, when a conflict of interest arises.

All work is to be completed without time constraints, intimidation, or other factors that could influence verification results.

The Manager, Bylaws Compliance, has the responsibility to ensure actual and perceived conflicts of interest are managed appropriately.

Environmental Health Team (EHT) members will ensure actual and perceived conflict of interests are managed by:

- Avoiding any work on any aspect of any project where a conflict would occur.
- Ensuring EHT members are free from any commercial, financial, political or other pressures that might affect their independence.
- Not accepting any bribes.
- Ensuring that team members do not have any professional input into any Food Control Plan or National Programme Plan that they or their immediate family members (whether as individuals or as part of a family trust, partnership or company), have an interest in as owners or operators.
- If a team member has had input into the development of such plan, they are not permitted to conduct the verification process of the plan. This will be conducted by an independent party and they will have no role in this process.

In the hospitality industry an offer of food is commonplace and is not normally any attempt to disestablish the independence of the verifier. It is not necessary to report offers of free food made at the time of a verification audit or subsequent visit in this context of hospitality. However, it is not appropriate to accept offers of food or alcohol as this may introduce perceived conflict of interest. Kaipara District Council does consider it appropriate to accept the offer of a non-alcoholic drink in the course of a verification meeting.

Policy: Impartiality

The Environmental Health Officer (EHO), as a verifier, may need to discuss management plans, implementation and corrective actions, while remaining impartial and independent. In these situations, the verifier needs to work with the operator in a proactive manner to fix problems, facilitate compliance and help with capacity building.

Document Ref:	Document Name	Version	QAM Author	Release Date	Page
EH QA TEMPLATES	Application Food Business Renewal	2	MQA	July 2025	5 of 9

A proactive manner means:

- Providing constructive, educative critique.

A proactive manner does not mean:

- Assuming accountability for operator compliance
- Acting in the capacity of a quality assurance manager
- Acting as an advocate between the company and MPI
- Assuming ownership for drafting documentation for the operator
- Providing commercial services for non-mandatory activities.

Feedback on unacceptable outcomes:

Independence must not be compromised when providing feedback to an operator about an unacceptable outcome. The verifier should explain why an outcome is unacceptable and identify which legal requirements have not been met. The verifier and the operator should then agree on corrective actions to rectify non-compliance.

Impartial means:

- Maintaining neutrality
- Acting lawfully and objectively
- Ensuring actions are not affected by personal interests or relationships
- Declining gifts or benefits that place the verifier under any obligation or perceived influence
- Carrying out functions unaffected by personal beliefs
- Never misusing position for personal gain
- Effective separation of consultancy and assessment work for same client.

Complaints and Appeals

The EHO will advise operators of their right to submit a complaint or appeal regarding a decision made by the EHO. Complaints and appeals will be managed impartially, confidentially, and in a timely manner.

1. All complaints or appeals must be received in writing i.e. email, letter etc.
2. Complaints may also be registered via the Council's online portal "Have Your Say", which can be accessed from the Council's website home page.
3. The Manager, Quality Assurance (MQA) will confirm with the complainant, within 48 hours, that Council has received and will investigate the complaint.
4. The MQA will provide an expected timeframe for completion and inform the complainant of the outcome.
5. When a complaint does not relate to an Environmental Health function, the complaint will be referred to the appropriate section of the TA.
6. When a complaint does relate to a EH Function, the Manager, Bylaws Compliance, determines whether the complaint is of a genuine nature and warrants further investigation.
7. Copies of complaints will be held by the MQA in the Complaint File. Records will be kept indefinitely.
8. If the complainant does not accept that a decision is justified, the EHT must inform the operator that they can take the complaint to MPI.
9. The EHT must supply evidence to MPI, including the original complaint, original decision, and supporting information.
10. The EHT must define the process for contacting MPI.

Complaints and Appeals can be made directly to the Ministry for Primary Industries (MPI) contact MPI by telephone 0800 008 333 or info@mpi.govt.nz.

Confidentiality

All information obtained during verification shall be treated as confidential, in particular proprietary information that is made available to the verifier and kept secure. Ownership of intellectual property, which includes the operations and activities of operators, will be recognised.

Disclaimer

A Verification under the Act does not constitute a permit, authorisation, or other permission under any other Act, Regulation or Bylaw. The verification report provided is based on the inspection of the accessible aspects of the food business and represents the Council Officers opinion of the observable condition of the building, facilities, equipment and documents on the day and time of the verification / site visit.

The verification report is prepared for the food business and the Ministry for Primary Industries only. The food business agrees not to disclose the verification report to any third party. The food business agrees to indemnify, defend and hold the Council harmless from any third-party claims arising out of the food business distribution of the inspection report to any third party.

Council's liability for mistakes or omissions in the verification report is limited to a refund of the fee paid for verification.
