

## Bruce ROGAN

*My principal place of residence is in the Kaipara District Council area.*

I was the second highest polling mayoral candidate in 2016. I would have served the whole term. I never quit. I served on council 2002-2004. I tried very hard to prevent the Mangawhai debacle. I managed to get the (whole) council to agree to warn the Australian bidder that if they overspent, the rest of Kaipara would not pay. But you are paying, because you have been shafted.

The lawful directive of the council was not acted on. So I acted. The bidder then went bankrupt. Council did a secret deal with another bidder. Then they borrowed money illegally, and set up an illegal project (High Court Ruling).

Put me in there for two years and I will cancel the illegal debt and I will put the ratepayers front and centre of everything that happens in Kaipara. This is your big chance to fix everything.
