

Mangawhai Structure Plan

Adopted January 2005

with

Kaipara District Council

foreword

Kaipara District Council is pleased to release the Mangawhai Structure Plan.

Council and the people of Mangawhai have put a large amount of work into this Plan over the last two years and the result is an innovative document introducing creative and resourceful solutions to the challenges faced by a rapidly growing community.

The Plan, adopted by Council in January 2005 is designed to direct future development and enable management of the effects of growth in the area. The diversity of issues and interests in Mangawhai are acknowledged in the Plan, as are unique challenges. It provides strategic direction to guide development, infrastructure planning and environmental matters while retaining the essential character of the community.

The District Plan is currently under review and this will ensure that implementation is supported by appropriate statutory mechanisms.

I commend all who have contributed to this work and I look forward to seeing the concepts put into practice.

Peter King QSM

Mayor
