

## **DRAFT DEVELOPMENT CONTRIBUTIONS POLICY 2025**

Kaipara District Council is continuing to review its Development Contributions Policy (DC Policy). The DC Policy identifies the financial contributions expected from developers to fund infrastructure related to the growth of the district. It seeks to ensure developers pay for development and that ongoing costs related to growth do not become a burden to the district's ratepayers.

This further consultation follows significant changes made to the draft Policy in response to public submissions. Thank you to those who have already made a submission on this Policy, your points have been considered by the Development Contributions Review Panel. You only need to submit if you have new points to raise on the revised Policy.

### **Have your say**
