

AS IVE STATED MY ~~FARM BOUNDARY~~ IS  
DIRECTLY NORTH OF 9 TAWA AVE - OVER THE  
LAST 2 YEARS AND AS RECENTLY IN THE  
LAST 7 DAYS PEOPLE ~~HAVE~~ HAVE BEEN  
ON THE PROPERTY IM CUSTODIAN OF. SOME  
TAKING PHOTOS, SOME LEAVING GATES  
OPEN - YOU KNOW WHO YOU ARE IN THIS  
ROOM TODAY - WHAT HAS HAPPENED TO  
COMMUNITY VALUES, HONESTY AND INTEGRITY.  
WHAT MSG DOES THIS SEND TO OUR TAMARIKI  
IM CERTAINLY NOT PERFECT BUT I WAS  
BROUGHT UP TO BE POLITE AND HAVE  
PASSED THIS ON - "ASK ME IF YOU WANT  
TO ENTER MY PROPERTY - I'LL PROBERLY  
SAY YES. SOMEONE CLAIMED IT WAS  
'CLOSED RD' AND WERE LOOKING FOR  
ACCESS TO KWK FOR A STORMWATER <sup>ROUTE</sup>.  
IF YOU KNEW THIS 'CLOSED ROAD' ~~WAS~~  
THERE YOU MUST OF LOOKED UP TITLES -  
AND IGNORED MY NAME ON IT. -  
OWN UP TO THIS - ~~STAND UP NOW IF~~  
YOU'VE TRESSPASSED THIS LAND. TALK TO ME LATER

LOOK IN THE MIRROR WHEN  
YOU GET HOME OR IN THE  
MORNING - FACE YOUR  
TAMIRIKI AND WHANAU -  
AND SAY THAT YOU'RE HONEST

- THANK YOU AND MŪKITI  
RESPECT TO THOSE WHO  
HAVE STOOD UP - TALK TO  
ME LATER

- MR COMMISSIONER - DON'T YOU

WANT THIS TO BE AN OPEN  
AND HONEST HEARING ??

WHY WOULD YOU WANT

MORE UNDER HAND TACTICS?

SET THE TONE

## WASTEWATER - SEWERAGE.

1ST THING I WILL SAY IS THAT YOU WONT 'BLUFF' OUR COUNCIL OR SUBMITTERS FOR AND AGAINST ON THIS ONE !! ITS SUCH A MISSMAGH OF TALK, PROTECTION AND EVIDENCE - I CANT WORK IT OUT - SO MOE YOU CAN ANSWER ME HERE:

FIRST WE GOT TOLD BY TIM ENSOR & AN ASSOCIATE THAT THEY'D BE USING THE EXISTING EFFLUENT PONDS - THEN WE GOT TOLD A COMPLETE NEW SET UP WOULD BE DEVELOPED ONSITE - NOW WE GET TOLD THEY ARE TRYING TO HOOK UP TO ~~AN~~ <sup>THE</sup> ~~ALREADY OVERLOADED~~ KAIWAKA SYSTEM - CONFUSED. —

AGAIN THIS IS FALSE HOPE TO THE GOOD PEOPLE OF ORUAWHARO

# WASTEWATER

MOE - YOU CANT 'BLUFF' OUR  
COUNCIL OR THE PUBLIC HERE TODAY.

YOU'RE = TRYING TO SELL US A LEMON  
THE PUBLIC HERE ULTIMATELY DONT  
WANT OUR WATERWAY AND ULTIMATELY  
THE KAIPARA HARBOUR POLLUTED.

**QUESTION** WHAT IS YOUR PLAN

WE ALL WANT TO GATHER KAIMOANA  
IN OUR DISTRICT.

WHAT HAPPENS WHEN THE ~~STOR~~ WASTEWATER  
FAILS - IT ESCAPES DOWN THE LESLIE  
FARM <sup>AND OTHER</sup> AND ENTERS THE KAI PARA  
HARBOUR BY THE 3 FURLONGS.

SOME OF US KNOW OVER 90% OF  
ALL SNAPPER ARE FROM THE KAI PARA  
HARBOUR FOR THE ENTIRE WEST COAST  
OF N.Z.

IMPACTS LIKE THIS CANT HAPPEN  
IT WILL EFFECT THE KAIMOANA OF  
THE WHOLE KAI PARA - INCLUDING  
ORUAWHARD.

THIS IS POOR PLANNING AND AN  
AFTER THOUGHT - FULL OF GUESSWORK.

WE THE PUBLIC DESERVE ~~MORE~~  
ANSWERS ??

I THINK THIS IS A FAILING OF THE  
SYSTEM - COME UP WITH AN IDEA  
PUT IT OUT THERE AND PIT ONE  
SIDE AGAINST ANOTHER - <sup>WE THE</sup> PUBLIC  
HERE TODAY - LETS NOT FALL INTO  
THIS TRAP - LETS GET A PROPERTY  
TO BE PROUD OF IN AN AREA  
WITH GOOD INFRASTRUCTURE

noise generation, my opinion is that the proposal and the Minister has given particular regard to this issue.

7.3 In terms of the purpose of the RMA as articulated in s 5, the designation will enable the community to provide for its social and cultural well-being through facilitating a purpose-built facility for the Kura to operate out of. This will allow the Kura to forge a greater connection to the whenua while avoiding, remedying, or mitigating any adverse effects of activities on the environment.

7.4 On this basis, my opinion is that the proposal will achieve the purpose of the RMA.

## 8 Section 42A report

8.1 The S42A officer has raised several matters not addressed elsewhere in this evidence or the evidence of others.

### Cultural effects

8.2 The MoE has engaged with Environs Holdings LTD (**Environs**) the mandated environmental subsidiary of Te Uri o Hau Settlement Trust through the preparation of the NoR. Environs submission supported the designation and provided comment such as: *"The kura provides for authentic enculturation of Te Uri o Hau cultural values trans-generationally"*.

8.3 The submission also requested that MoE continue to consult with Environs and the Kura regarding cultural impact assessment. The MoE is committed to ongoing engagement and while a placeholder for a 'cultural condition' was included in Section 9 of the NoR Report, due to the ongoing constructive discussion, this condition is no longer considered necessary.

### Wastewater management

8.4 MoE has done a feasibility study for on-site wastewater disposal and has engaged with KDC regarding a connection to the Kaiwaka reticulated network. While onsite wastewater disposal is feasible it is likely to require a large area of land. If the disposal system was sized for the establishment roll with the intention that a future connection or system upgrade would be implemented once the roll grows this likely increases the feasibility.

8.5 KDC has indicated agreement in principle that MoE can connect to the Kaiwaka reticulated network but has requested that some work is completed to assess network capacity. This work is currently underway and if completed in time will be tabled at the hearing.

8.6 Regardless of the outcomes of this study, a feasible wastewater management option is available to MoE and therefore my opinion is that wastewater management is not an impediment to designating the site for Educational Purposes.

### Lapse date

8.7 Covid and recent adverse weather events around the country has taught us that project delays can happen. The designation process is time consuming and

Where,
